Redcliff Montana

Bore Hole Log

Project Number: MH-01-1298
Report Number: 3
Report Date: 4/23/01
Contractor: Drill Co.
Drill Method: Drill Stem auger
Technician: Drew
Logged By: Mike
Ground Elevation: 99.1
Drill Date: 4/16/01
Bore Hole Number: 12
Location: Downtown
Hole Depth: 27.5 meters
Page: 1 of 1

Project: Slope stability investigation

Meters	Moisture/Limits					Soil Description	Symbol	Sample	Headspace Vapor					Well	
	■ Liquid Limit (%)	● Natural Moisture (%)	▲ Plastic Limit (%)						10	100	1K	10K	100K		
1	%	10	20	30	40	0 to 1 - BEDROCK-undifferentiated									:sand to 9 meters
2															:50 mm solid schd. 40 PVC to 17 meters
3						1 to 1.8 - SANDSTONE coarse to medium									:bentonite to 24 meters
4						1.8 to 3 - TILL-oxidized traces of fine sand									:50 mm 0.01" horizontally slotted schd. 40 PVC from 17 meters
5						3 to 5 - TOPSOIL OR ORGANIC SOIL									:Water level on 5/24/01, 15 meters
6						5 to 8 - MUDSTONE									:Well depth 24 meters
7						8 to 12 - GRAVEL
